Guy joined Johnson Engineering in 2017. He has more than four decades of experience and is thoroughly familiar with many aspects of the Surveying and Mapping profession. He worked his way up thru the ranks performing a wide variety of surveys. Drawing on his vast field experience, he is responsible for projects including, but not limited to, boundary and topographic surveys, platting, hydrographic surveys, sketch and legal descriptions.

Relevant Experience

- **ALTA/NSPS Surveys** - As a Professional Surveyor and Mapper Guy has attained a reputation as an expert in this field. Guy has worked with many Attorneys and Title Companies performing American Land Title Surveys that are critical to closing loans on commercial properties.
- **Condominium Surveys** – Responsible for preparing preliminary and final Condominium Exhibits on High Rise Condominiums. Some examples of Guys experience are 12 Buildings in Park Shore, 8 Buildings in Bay Colony, 4 Buildings in Tarpon Cove, 3 Buildings in Pelican Bay, 2 Buildings in the Strada at Mercato (Naples), 11 Buildings in Bay Beach (Ft. Myers Beach), 2 Buildings in Bonita Bay (Bonita Springs), One Watermark Place (West Palm Beach).
- **Construction Layout Surveys** – Guy has been responsible for the completion of many successful construction projects. Some examples of Guys experience are Roads, Bridges, Drainage Projects, Shopping Centers, Office Buildings, Banks, Underground Utilities, High Rise Condominiums, County Parks, Subdivisions, Golf Courses and Clubhouses.
- **Topographic Surveys** – Responsible for obtaining and mapping topographic data for design purposes. Clients being Collier County, Lee County, Florida Dept. of Transportation, Florida Dept. of Environmental Protection, South Florida Water Management District, City of Naples, City of Bonita Springs, Naples Airport Authority, Collier County Public Schools, Lee County Public Schools and many private land owners, architects, engineers, and developers.
- **Subdivision Platting** - Responsible for Subdividing large tracts of land into smaller lots creating boundaries, including streets, easements, and rights of way. Working with Land Planners, Architects, Engineers, County and City Governments to assure that the creation of the new plat meets state and local requirements.
- **Hydrographic Surveys** – The definition being a survey having as its principal purpose the determination of data relating to bodies of water. Some examples of Guys experience are Clam Pass, Wiggins Pass, Clam Bay, Park Shore Beach, Hideaway Beach, Tiger Tail Beach, Collier County Beach Re-nourishment from Vanderbilt Beach to Marco Island, DEP R-Monuments from Bonita Beach to Marco Island, Everglades City and Bay Beach on Estero Island.
- **Right-of-Way and Easement Mapping** – Right of way maps and easements are prepared when real property rights are to be acquired i.e., fee, permanent or temporary easements. Guy worked closely with Collier County Stormwater Management Staff on the Lely Area Stormwater Improvement Project also known as LASIP and Transportation Services for the White Blvd. Bridge Replacement Project.
