

JORDANNE BRADY

Landscape Designer

Education/Training

Bachelor of Science
Architectural Studies (2016),
The University of Technology,
Jamaica

Jordanne joined Johnso Engineering in 2016. She serves as a designer in the planning and landscape architecture group. After receiving her B.S. in Architectural Studies at the University of Technology, Jamaica, Jordanne joined Johnson Engineering full time in 2016.

As a student of architecture, she was also employed full time at a landscape design and construction firm and was involved in numerous types of projects including site planning and landscape design for roadways, parks, residential and commercial complexes, resorts, community gardens, and site mapping, utilizing skills like existing site observation and documentation, team and client meetings, report writing, conceptual design, and presentation. Jordanne provides technical and graphic ability to Johnson Engineering with skills in programs like AutoCAD and the Adobe Design Standard Suite in developing conceptual sketches and renderings, presentation graphics, and plans preparation for construction documents.

Jordanne's capabilities include landscape and architectural design, graphic design, proficiency in several 2D and 3D drafting and rendering software, and plans production, consisting of site analysis, conceptual planning, site design, planting design, preparation of construction documents, and site observations. Jordanne has been involved in a variety of projects types at Johnson Engineering including: roadway, commercial and residential landscape design for permitting, and conceptual site design.

Relevant Experience

- ↪ Twin Eagles Community Plan Review and Site Observation, Naples, FL - Provided architectural and landscape plan review services for the TwinEagles community located in Collier County, Florida. Reviewed architectural, site, grading, landscape and irrigation plans for residences constructed or modified in the TwinEagles Community. Jordanne ensured that any plans submitted complied with the design review guidelines including architectural, landscape, and grading requirements established by the TwinEagles Community and Collier County. Jordanne also performed on-site observations of the residences to confirm compliance with approved plans and design review requirements.
- ↪ Alligator Park Conceptual Planning, Punta Gorda, FL - Project team member responsible for existing conditions evaluation to identify potential design conflicts, conceptual planting and hardscape plan, project graphics for public presentation, and client/team meetings .
- ↪ Starkey Boulevard at Alico Pass Median Landscaping, Pasco County, FL - Provided landscape design and plant selection in compliance with city land development code.
- ↪ South County Water Reclamation Facility Berm Enhancement Project, Naples, FL- Team member responsible for providing plant selection palette and photo-simulation graphic deliverables depicting proposed landscape design.
- ↪ Everest Water Reclamation Facility, Cape Coral, FL - Provided site landscape observation services. As-built plans prepared as per on-site observations.
- ↪ Bridgetown at the Plantation, Fort Myers, FL - Performed calculations for county land development code compliance for street tree and littoral shelf requirements. Prepared plans for permitting.
